CONFIDENTIAL

REACTIVATION OF A TRAINING SITE, [REDACTED]

25X1A6a

The NEA Division recently informed OTR of its plan to re-activate a training site [REDACTED] and asked whether OTR could supply instructors and other support. The Division has approximately twelve agents, either recruited or approved for recruitment, that it proposes to train in Staybehind Operations, which would include instruction in communications, basic trade-craft, and limited PM activity. In response to a proposal of OTR that the training take place at [REDACTED] a base already staffed and operating, the Division stated that the decision to reopen the [REDACTED] site had already been taken.

25X1A6a

25X1A6a

OTR suggested that the NEA Division get information from NEA stations on their training requirements for the coming year and select DD/P case officers that OTR could train as instructors. OTR will cooperate with the Division on preparing a questionnaire on training requirements.
